0001

3. How much additional acreage was disturbed during the past year? None

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

We mined 100 tons, 4 25-ton truck-
loads, of pe-like from the southernmost of
two old existing pits. The material was shipped
to various companies for testing.

5. How much acreage was reclaimed during the past year? none

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

none

7. What is the total disturbed acreage at years end? Previous mining has left
2 roads and 2 pits on this section. approx 4-5 acres.

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

We plan to submit a large mining permit
and bring the deposit into commercial production
of 100,000 - 150,000 TPY. Testing and planning
over the past two years has been very promising.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
